Separate Campus Housing						
Griffin Visitor Housing	Yes	Yes	Yes	No	No	Yes
Tifton Future Farmstead House	Yes	Yes	Yes	No	No	Yes

Note*: Smoke Detection means there are smoke detectors in every bedroom, hallway and common area. Smoke detectors in Kenny Road and McGowan Rd apartments will all sound within an apartment but not from one apartment to another.

Note*: Fire Alarm Systems are monitored 24hrs | 365 days a year. Addressable fire alarm systems monitor each device in the system as a point address. That means each smoke detector, pull station, etc. has a separate address (location) that can be displayed on the main fire panel.

Note*: Hood suppression systems are fire extinguisher systems installed in the stove ventilation hood that will extinguish a fire and sound the general fire alarm when discharged.

Note*: 153, 154 and 155 Gilmore Circle are non-monitored systems.
